

Head Fresher's Rep Manifesto – Alex Lippa and Arthur Kendrick

We would like to be the head f'reps because we really appreciate the community spirit and friendship within this college. The first years are obviously a big part of this environment and fresher's week is their first exposure to Downing. We want to make sure that this first experience of Downing is the best it can possibly be. We think we would suit the role of head f'reps because we are both friendly and approachable characters that are often bustling around college and available to talk to anyone. We both are very involved with things outside of college and therefore can offer some varied perspective on issues within the college. We are also therefore well-placed to offer advice on certain things that are going on outside of Downing. If we do become head f'reps we have a number of ideas for what we do in Fresher's week. The three main ones off our list are to firstly keep and improve the tours of Cambridge and the university that were so useful to us in our fresher's week. Our second idea is to try showcase the talents of existing Downing members or indeed friends from other colleges and try to put on some live music. The final idea is the theme for our week. We would like to theme the evening entertainment on the f'reps. The events will be based upon either things that the f'reps do outside of curricular work such as sports or acting or indeed interests that they have such as films or literature.
